FINANCIAL MANAGEMENT COMPANY, New York, NY

2011 – Present

Principal, Head of Valuations

Senior executive for the Valuation team charged with providing strategic leadership of valuation and analysis of existing investment portfolio. Partner with investment resources to create valuation models and facilitate approval of 400+ privately valued holdings across Private Equity, Credit, and Real Estate platforms. Leverage expertise in industry regulations, documentation standards, and best practices to determine fair value of investments in accordance with ASC 820 guidance of private company, structured loans, and real estate holdings. Build and maintain strong relationships with stakeholders and executive leadership to support valuation process.

- Lead Valuation Committee meetings, presenting valuation materials to executive leadership team comprised of CFO, CAO, Head of Legal, Head of Risk, and Senior Investment Partners to gain approval.
- Scaled the Valuation function, absorbing 400% investment growth throughout tenure as firm grew to \$250B in assets; recruited new talent to support the 20% CAGR, increasing staff from 3 to 8 direct reports.
- Spearheaded the research, selection, and rollout of a firm-wide portfolio data collection technology platform.
- Orchestrated the ground-up development of a best-in-class valuation process for leading SEC registrant multinational Private Equity Firm. Established best practices and framework for all valuation activities, including portfolio company evaluations, purchase price allocations, and platform acquisition diligence.
- Collaborated with vendors to design cost-effective outsourcing solutions, capturing greater profit results while maintaining optimal risk mitigation and internal control.
- Directed the negotiation of favorable provider terms across 10+ service providers; prevented \$1M in additional annual expenses by securing zero cost increases for services rendered for over 7 years.
- Designed and implemented Sarbanes Oxley (SOX) internal control framework across the valuation organization to ensure regulatory compliance and risk management.
- Key contributor for the design and implementation of Assets Under Management (AUM) reporting data collection and reporting tool used in quarterly public filings. Created data models and reporting to support 50+ inputs for 200+ reporting entities per quarter. Led the post-rollout transition to a stabilized data warehouse platform and online submission tool.
