## NURSE PRACTITIONER EXPERIENCE

ABC HOSPICE, New York, NY

2018 – 2020

### Family Nurse Practitioner

Provided comprehensive care for complex patients within a hospice environment, focusing primarily on end of life symptom management. Partnered with interdisciplinary team consisting of senior administrators, case managers, social workers, Chaplin and volunteer bereavement coordinators to ensure the delivery of quality care for terminal patients.

- Oversaw all nursing responsibilities, including conducting in-person screenings to evaluate eligibility for hospice, as well as writing orders for level of care changes and preparing all patient documentation.
- Spearheaded the integration of ePrescribing system, ensuring all team members utilized system to optimize patient care and eliminate quality issues.
- Drove the implementation of SBAR reporting system, training nursing staff on system use.

NEW YORK MEDICAL GROUP, New York, NY

2016 – 2018

### Family Nurse Practitioner

Integral team member of this family practice office, working in collaboration with patients' PCP to facilitate annual wellness visits for adult/geriatric Medicare beneficiaries under Medicare Advantage Program. Coordinated and ordered wellness exams and referrals as required based on each patient's Medicare program.

- Educated patients and family members on condition, managing chronic illnesses and promoting wellness through personal care and regular medical visits.

ABC CARE MANAGEMENT, New York, NY

2014 – 2016

### Family Nurse Practitioner

Delivered care for elderly patients residing in long-term care and assisted living facilities, as well as skilled patients discharged from hospital setting. Cared for patients with chronic diseases or acute change in condition management. Built and managed strong patient relationships to ensure optimal patient outcomes.

- Educated patients on conditions and made care recommendations regarding chronic illnesses or overall wellness.
- Provided primary care support for patients within facilities, including reviewing medications, monitoring and measuring vitals, monitoring nutrition status, assessing infections and identifying change in condition.

XYZ MEDICAL NETWORK, New York, NY

2011 – 2014

**Family Nurse Practitioner – Oregon State Traveler**

Coordinated and delivered health assessments to geriatric Medicare Advantage member population throughout the state of New York. Assessed patients to identify chronic illnesses, including diabetes, congestive heart failure, hypertension and myocardial infarction. Developed high risk profiles according to Medicare standards.

- Educated members/patients on health care, chronic health conditions and wellness planning.
- Reviewed health data and recommended case management to ensure patients' ongoing care.
- Performed medication reconciliation and point of care diagnostic testing; completed ICD 10 coding.

CARE PROFESSIONALS, LLC, New York, NY

2009 – 2011

**Family Nurse Practitioner/Skin & Wound Care Specialist – Long-Term Care Division**

Brought in to serve as the sole Nurse Practitioner supporting a 25-doctor practice. Performed weekly rounds across long-term care facilities to provide care for patients. Facilitated evaluations for skin disorders and acute and chronic wounds, handling all care management, including sharp debridement, punch biopsy, I&D, diagnostic studies, laboratory tests and managing systemic and topical treatment modalities.

- Planned and delivered group and individual professional development courses for licensed and unlicensed staff on pressure ulcer prevention and treatment; provided training for all new hire doctors in wound care.
- Developed education tools to provide bedside training for staff to ensure the delivery of quality resident care.
- Prepared accurate and detailed documentation and coding of service provided.

UNIVERSITY OF HOSPITAL &amp; CLINICS, New York, NY

2006 – 2009

**Family Nurse Practitioner – General Surgery, Burn & Wound Service; Acting Manager – Burn & Wound Program**

Conducted daily burn & wound patient rounds in the burn ICU and med-surg floors. Handled burn and wound evaluation and management and supported residents and fellows during morning rounds.

- Identified burn program needs and presented staffing analysis to senior leaders.
- Developed management team organizational structure to support \$6M unit expansion, including coordinating burn service, staff development and education model, outpatient service lines and research opportunities.
- Attended unit meetings to support development of mission, vision, goals and objectives for the program.
- Implemented the Burn & Wound Interdisciplinary Team Quality Improvement Committee.
- Assisted with the launch of the unit website; chaired meetings to improve website with educational pages.
- Provided educational programs and consultations for nursing and medical staff as Missouri Rehabilitation Center to help build a referral relationship for burn and wound patients requiring acute rehabilitation services.
- Traveled to Shriners Burn Hospital for Children to observe their ABA-ACS verified Burn Center of Excellence.
